

Manager / Senior Scientist Mass Spectrometry (m/f)

Fresenius Kabi is a global healthcare company that specializes in lifesaving medicines and technologies for infusion, transfusion and clinical nutrition.

With our corporate philosophy of "caring for life", we are committed to putting essential medicines and technologies in the hands of people who help patients and to finding the best answers to the challenges they face.

In the field of biosimilars, we develop products with a focus on autoimmune diseases and oncology. Fresenius Kabi SwissBioSim GmbH is specialized in biosimilar medicines and consists of an experienced team of employees located in the Geneva region of Switzerland. As in all our ranges, Fresenius Kabi is committed to provide high-quality and affordable products for the therapy and care of critically and chronically ill patients.

Your assignments

- Operate a mass spectrometry facility in the area of biosimilars development
- Be responsible for all aspects of method development, method qualification, sample preparation, chromatography, data acquisition, data analysis, and data interpretation
- Involve in mass spectrometer maintenance, method improvements, providing project support, effectively communicating project progress, writing and updating of operating procedures as well as authoring of analytical reports
- Contribute to the planning of experiments and delivery of results according to budget and project timelines

Your profile

- Advanced degree in analytical biochemistry or equivalent field of study
- Several years' relevant work experience in mass spectrometry in the pharma or biotech industry
- Strong background in protein/mAb analytics
- Experience with experimental approaches such amino acid sequence determination, intact mass analysis, and mapping and quantification of post-translational modifications are preferred
- Knowledge of automation and liquid handling would be a plus
- Ability to work accurately, with attention to detail, in a highly organized manner
- Team worker and ability to maintain a highly motivating working atmosphere
- Good communication skills, both oral and written
- Proactive, flexible, open-minded, willing-to-learn and sharing attitude
- Fluency in English; French or German would be assets
